Q3 THEME: AI.AR Revolution

1. Four Metaversity Campuses with pathways: School, University, Entrepreneur, Investor.
2. \$1m Entrepreneur Scholarship & Entrepreneur Certification
3. \$10m in partner earnings with faculty & school opportunities

Q3 THEME: AI.AR Revolution

FOUR METAVERSITY CAMPUSES

Each campus adopts the Genius Formula Pathway, which involves engaging individuals through a tailored assessment that resonates with their interests and needs. This seamlessly transitions them into meaningful experiences aligned with their aspirations. Subsequently, these experiences guide them toward optimal products and actionable strategies which ensures a personalized journey for each community member.

THE PROBLEM

The marketplace is ever-evolving, your ability to build trust, cement your credibility and scale intelligently is essential for survival and prosperity.

It's heartbreaking to see each year, individuals and businesses with great value, and even greater potential, unable to hold their ground.

There are also those who are growing, stretching and reaching further than before. And those who know they are capable of achieving more, yet that next step seems like a giant leap when unsure about the resources at your disposal, or what the right steps are to plan, build and grow your unique business.

Entrepreneurs 'know' partnerships are the magic key that opens doors to the next level, yet many don't feel ready or aren't sure how to partner with the bigger players. Do you know your true worth? Can you see the value you bring to the table?

What is possible? >

THE PROMISE

Partnerships can fuel your journey, amplify your credibility and extend your reach at an unprecedented pace.

Picture this, unpacking your value and realising it to be far greater than you ever imagined. Envision that value as a thriving community, a steady stream of leads, a growing number of customers, and an unshakeable sense of confidence and credibility.

In just one month have crystal-clear clarity on the formula for your business to thrive, along with a roadmap outlining the exact steps to 'plan, build and grow'.

In a world that's constantly evolving, staying relevant requires consistent innovation and agility. With the rapid advance of AI and technology, partnering with a company that brings experience and resources to the table will put you on the fast track to growth. Not to mention, you'll be joining an extraordinary network of people, and together, you can simplify life, and impact the world.

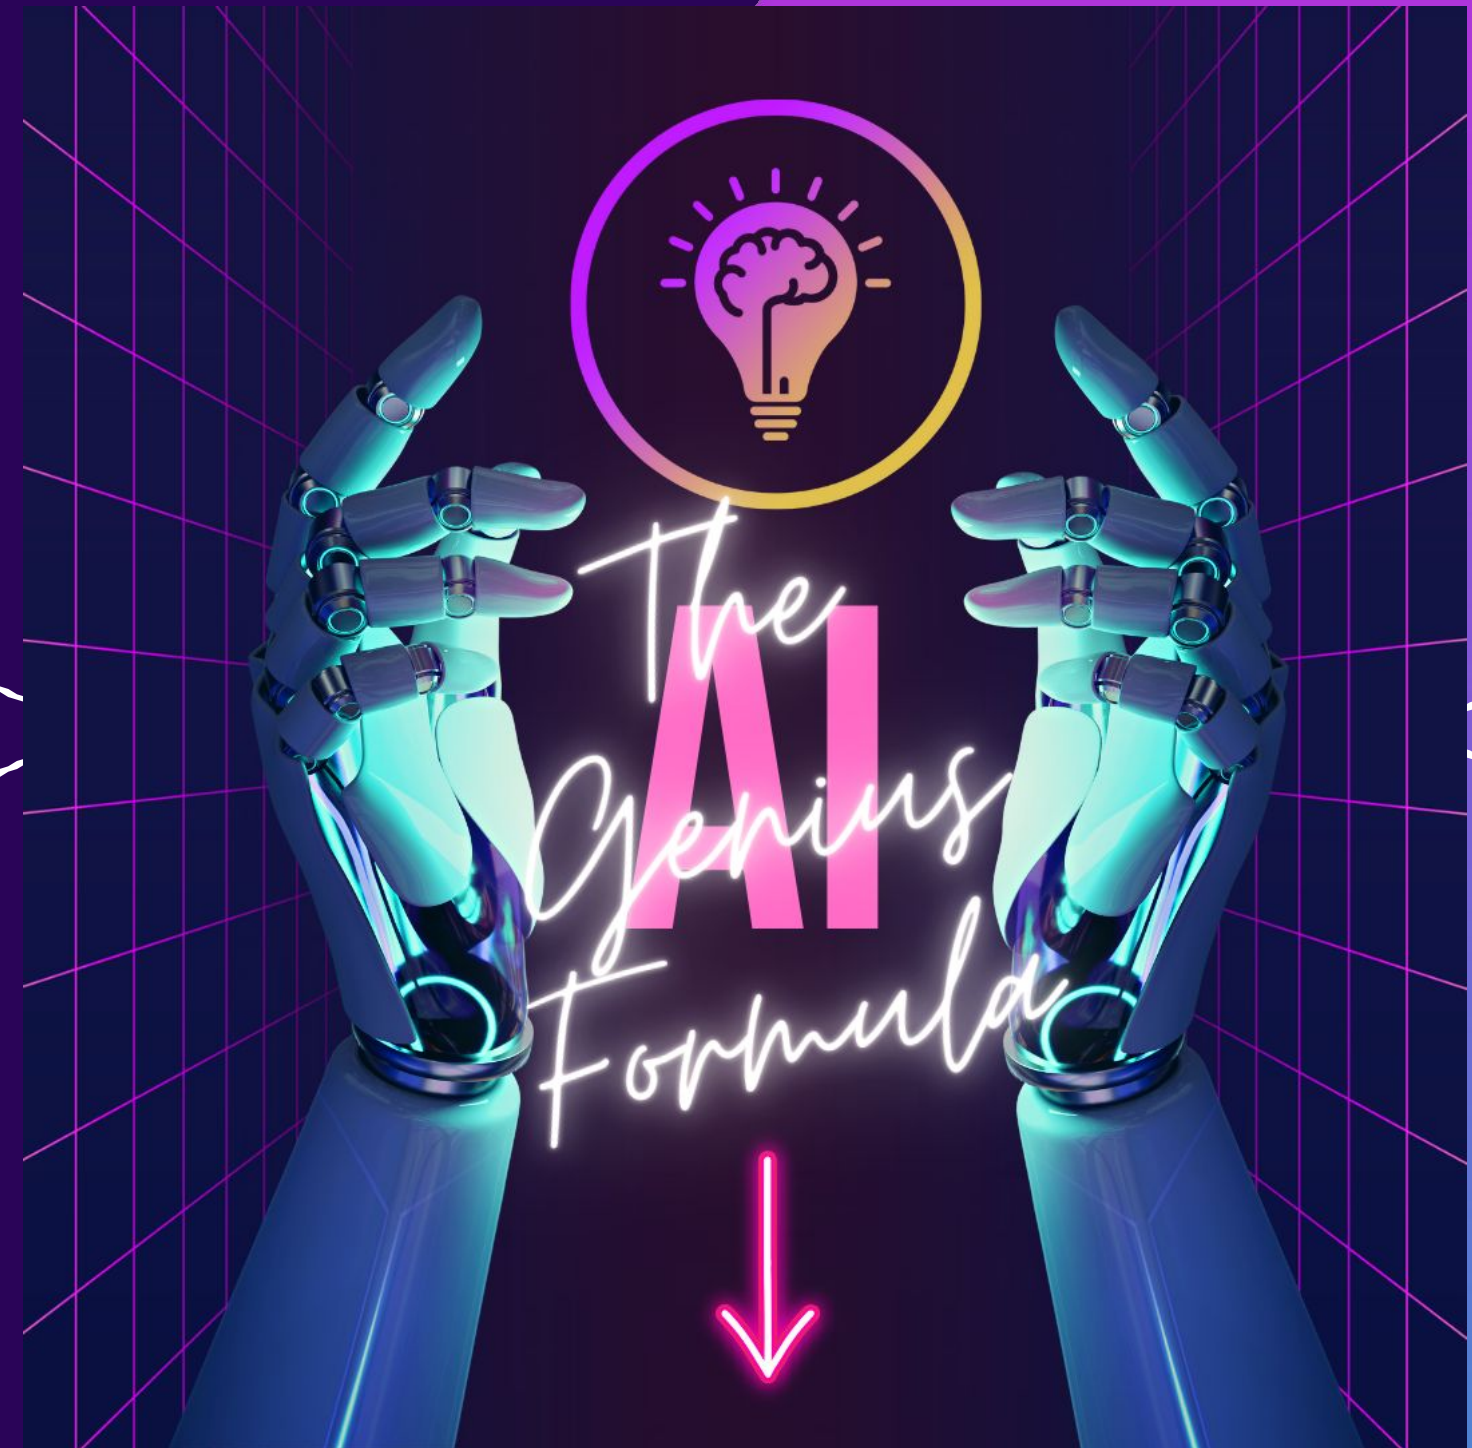

What is this superpower? >

THE SOLUTION

GENIUS FORMULA

The Genius Formula is the process partners on GeniusU use to build predictable, replicable learning pathways for their community, students and partners. Resulting in schools with global classrooms personalized for all students, and a multi-million dollar business for each partner.

WHO IS THIS FOR?

Entrepreneurs who care about creating real wealth and impact in their businesses.

Coaches, trainers, presenters, mentors or educators looking to grow their business rapidly in the next year.

Entrepreneurs who want to scale using partnerships and collaborations.

THE GENIUS FORMULA

PLAN

By planning your Team Charter for the year, and then breaking that into Quarterly Plans allows you four times in the year when you adjust the build and growth based on the feedback from the market and your metrics.

BUILD

From your Quarterly Plan, now map out and build your Genius Pathway. This includes every step of your customer pathway from ads and emails to landing pages, events and courses.

GROW

With your Quarterly Plan and Genius Pathway in place it's time to launch and grow. This is a daily, weekly, monthly and quarterly Genius Rhythm which allows you to test, measure and optimise your pathway.

Genius Formula

STEP 1 - THE PLAN

- 1. Onboarding Call** - Call with Genius Guide to walk through Genius Formula, onboarding and steps to deliver the Plan, Build and Grow phases. Onboard team with assessments.
- 2. Team Charter** - Mission, financial, development and learning objectives by year, quarter, month with KPIs. Includes ideal customer, problem being solved and the promise being made.
- 3. Product List** - Product list and customer pathway linked to Genius Formula value cycle, with features, benefits, pricing, promo GEMs. Monthly bookings and enrolments linked to KPIs.
- 4. Team Plan** - Training and recruitment plan: Covering Genius Guide, Leader, Product, Community, Marketing, Sales, Delivery, Operations, Finance for each level of plan.
- 5. Schedule** - Weekly and monthly calendar of marketing events and sales events. Partner and team meets. Measures and Milestones to Build and Grow.
- 6. Budget** - Key metrics for weekly flightdeck. Weekly, monthly and quarterly P&L and cash flow forecasts integrated into campus financials.

Genius Formula

STEP 2 - BUILD

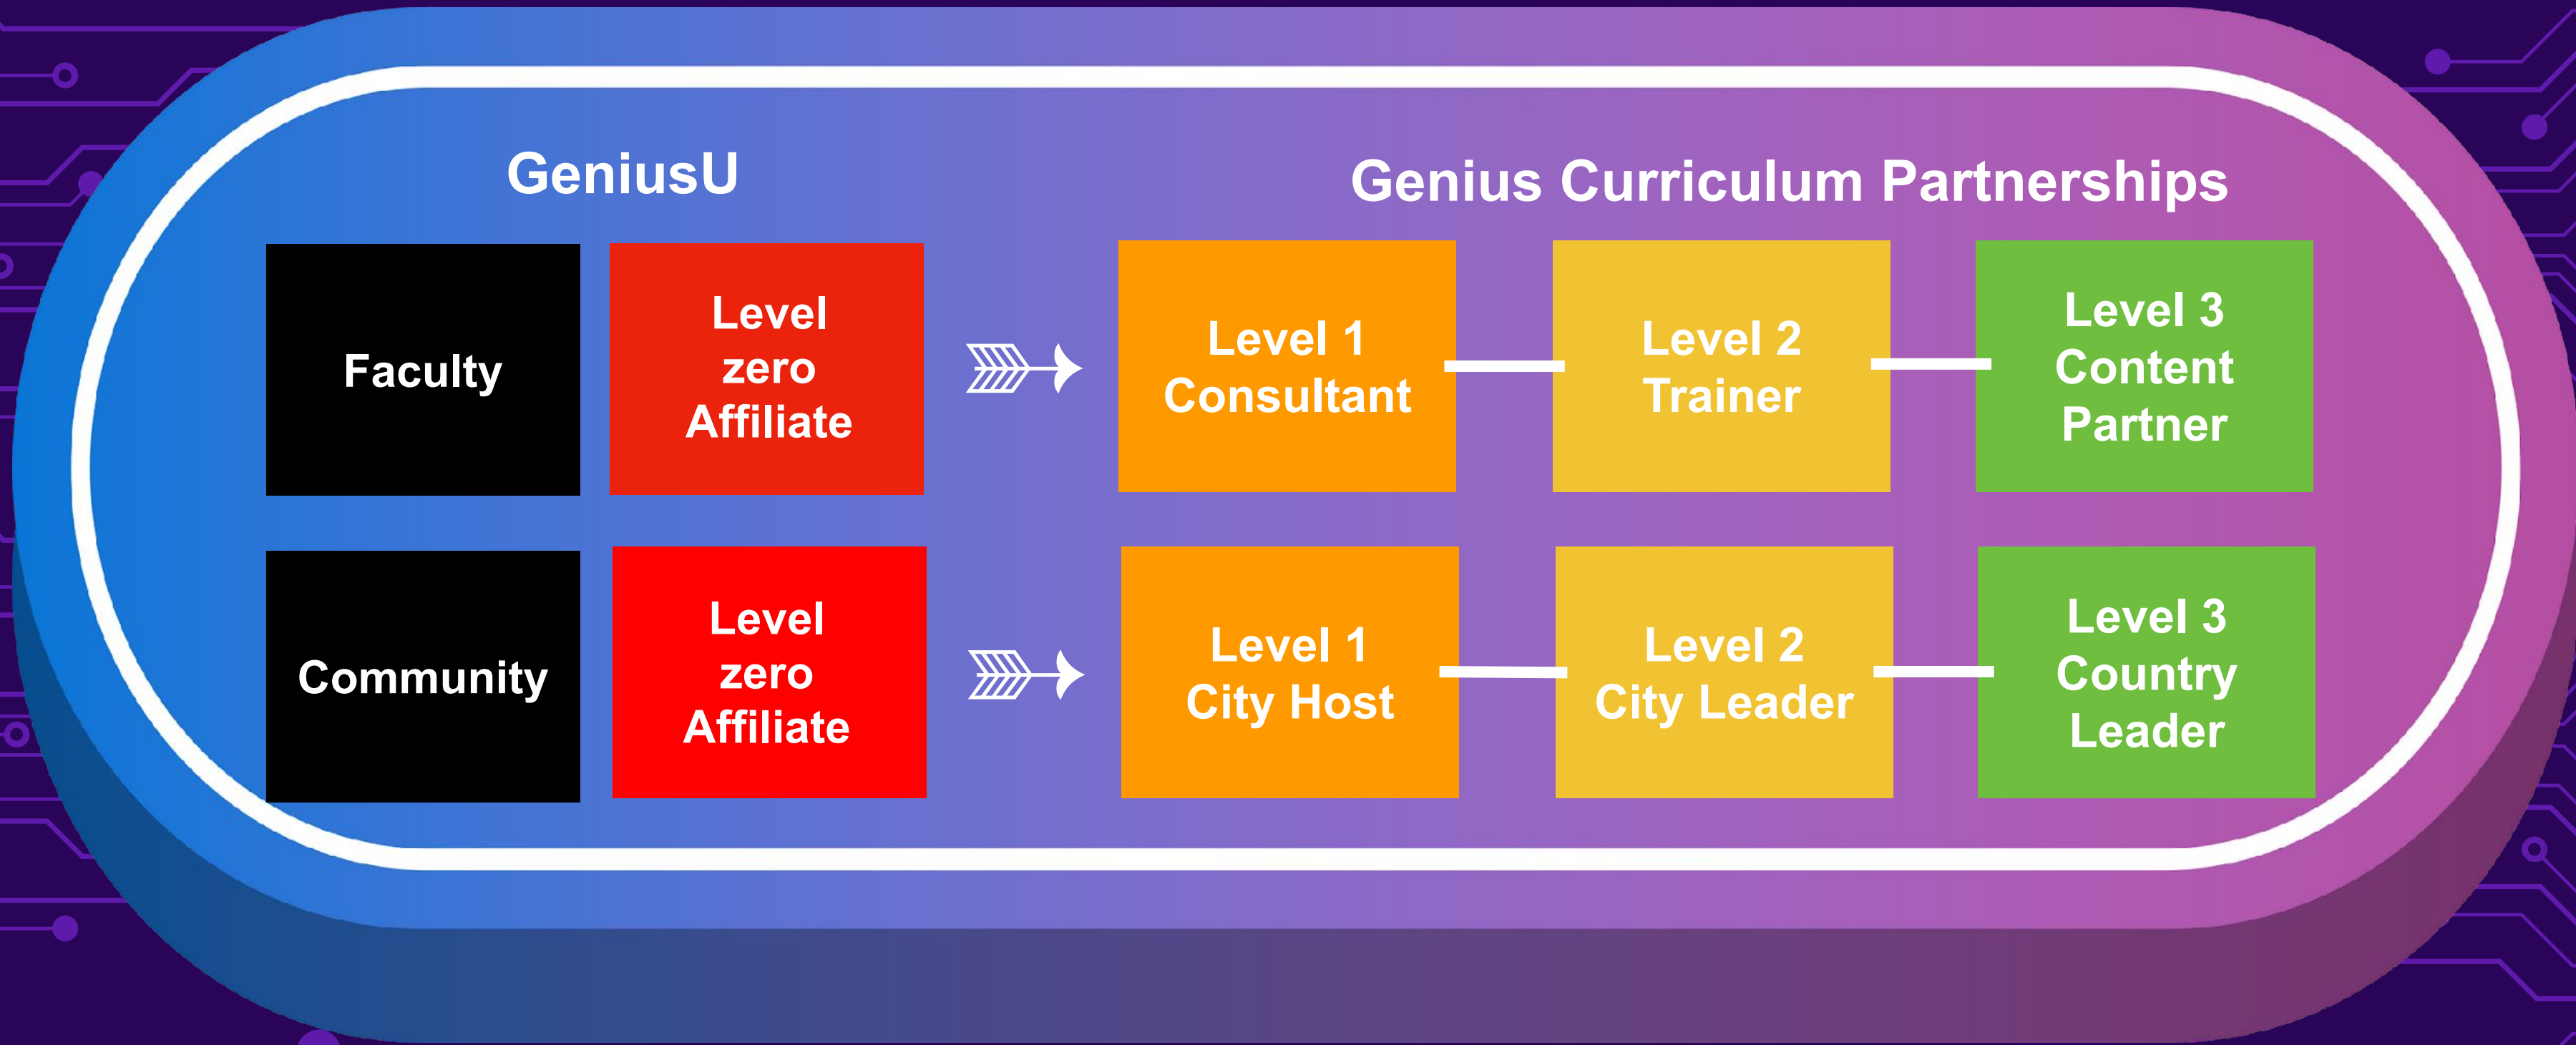

- 1. The Offer** - What is the compelling offer at every step of your pathway? How are you expressing this clearly in terms of problem, promise, product, proof, price? What is the cost of missing out?
- 2. The Customer Pathway** - What is the pathway your customers are following from first contact to assessment, masterclass and workshop, to navigation call, membership, certifications, masterminds and degree programs?
- 3. The UX/UI** - What is the user experience & user interface at every step of your pathway? What is the design, copy, video, learning & action steps that your customer experiences that creates value?
- 4. The Quarterly Plan** - What is the quarterly promotion plan that results in predictable revenue for the quarter that ensures you are measuring what matters.
- 5. The Roadmap** - What is the week by week roadmap that links the financial, development & learning objectives to your current and future build so you can earn and learn at the same time?
- 6. The Sprints** - Based on your roadmap & resources, what are the weekly sprints that give you a weekly step change growth in your community, customers, revenues, resources and pathway performance?

Genius Formula

STEP 3 - GROW

- 1. Review** - When is your daily standup, weekly meet, monthly financial review and quarterly plan review? At each review, what is working and not working? What has been earned and what has been learned?
- 2. Actions** - Based on your plan and roadmap, what are the scheduled actions to complete? Based on your dashboard and metrics, what priority actions need to be added? What is proactive vs reactive?
- 3. Ownership** - Every action needs an owner. At each daily, weekly and monthly meetings, who owns which actions to complete. Are key actions clear for each owner before and after each meet?
- 4. Milestones** - Every action needs milestones for prep, check and completion communicated with the team by the leader and owner, with the plan, roadmap and pathway updated if needed.
- 5. Dashboard** - What is your automated dashboard giving updated metrics? This needs to be the beginning of each meet to follow the Genius Rhythm & C.L.E.A.R. steps: Connect, Learn, Earn, Act, Review.

The \$1 Million Genius Model

By joining as an Education Revolution Partner, we will work with you to build your Genius Pathway on GeniusU, with metrics to build a model with \$1m in revenues.

This model works by building a predictable revenue stream using the Genius Formula. While the results vary based on your brand and product, the target metrics over the year look like this:

1. **Acquire leads for \$1 per lead:** \$200,000 in ad spend or commissions to Country Leaders and City Leaders results in 100,000 leads & \$1,000,000 in revenue (That's 20% marketing cost as a percent of revenue: Or a 400% R.O.I.)
2. **Deliver free value to your community:** All 200,000 leads take free assessments (Like the Entrepreneur or Investor Genius Test) through your links and many attend free masterclasses, giving them value and giving you valuable data
3. **A target 2% will upgrade to Level 1 products:** That means 2,000 will join your workshops or summit, and your 12 month membership. At an average of \$50, this means you make back \$100,000 on the front end. You can also direct them to our workshops and summits on GeniusU until you're ready with your own products.
4. **From this group 600 will qualify for upgrade calls:** In our experience, 600 qualified calls leads to 200 upgrading with an averaging \$4,500 per upgrade and \$1,500 per call. You can use our Genius Igniter Team to make the calls.
5. **This will result in \$500,000 in upgrades:** An average of 40 upgrades will be for certifications or courses at \$5,000 on average, and 20 upgrades will be for degrees or masterminds at \$15,000 on average.
6. **The final step** is providing partner certifications: From the same upgrade calls, an average of 80 partners will join you when given the right levels of opportunity at an average of \$5K, generating \$400K in additional revenue.

Genius Curriculum

OUR C.L.E.A.R PHILOSOPHY

Our students earn Genius Entrepreneur Merits(GEMs) for each step they take to Connect, Learn, Earn, Act and Review, gamifying the experience.

An important additional element in our learning methodology is our "CLEAR Philosophy". This is in reference to how we have designed GeniusU and Genie to focus on five daily actions that we recommend students to take. These five actions and sections within GeniusU are Connect, Learn, Earn, Act and Review, and they form the acronym C.L.E.A.R.

Students earn GEMs for taking actions in each of these five areas, and our partners and faculty use these five areas to design their own circles, courses and products on GeniusU, combining an entrepreneurial methodology of how students are learning with the entrepreneurial content of what they will learn.

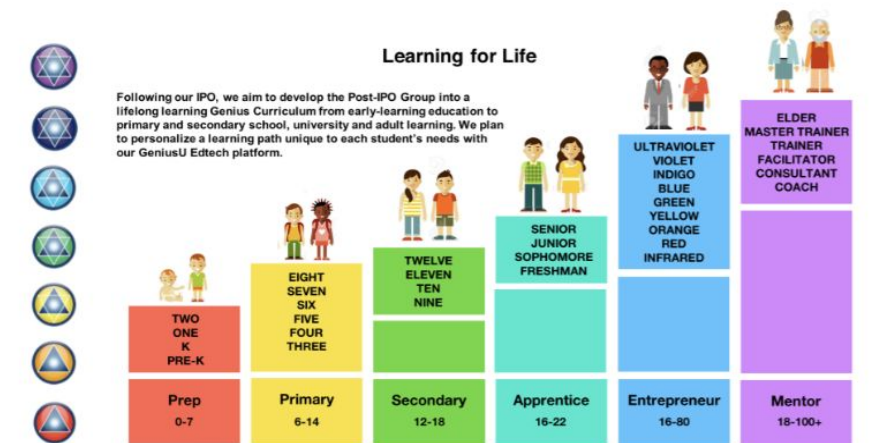

The reason that we believe that these five areas are so important in mastering in self-directed learning is because it provides the necessary scaffolding for relevant and contextual learning that is often missing in traditional education:

"Education is a social process; education is growth; education is not preparation for life but is life itself."

- John Dewey

Genius Group Ltd.

OUR GENIUS CURRICULUM

We believe that the problem that we are solving is that individuals from students to employees to freelancers to startup founders want to learn how to be entrepreneurial and "create a job" instead of needing to "get a job." We believe that the current education system and online courses do not provide any recognized curriculum that can be relied upon.

Our curriculum is being created in direct response to the challenges in the current education system. We began by making our curriculum an addition to the existing education system.

We are now developing a life-long curriculum that serves as a supplement to the existing education system.

In time we aspire to create a fully accredited replacement to the traditional U.S. school and university pathway, with an entrepreneurial alternative to the current systems offered from primary school and secondary school through to university, ongoing vocational training and entrepreneurial training.

Philanthropy: Love of what it is to be human

Philosophy: Love of the world around us
