THE EARTH NEEDS MORE HEROES

THE GENIUS JOURNEY

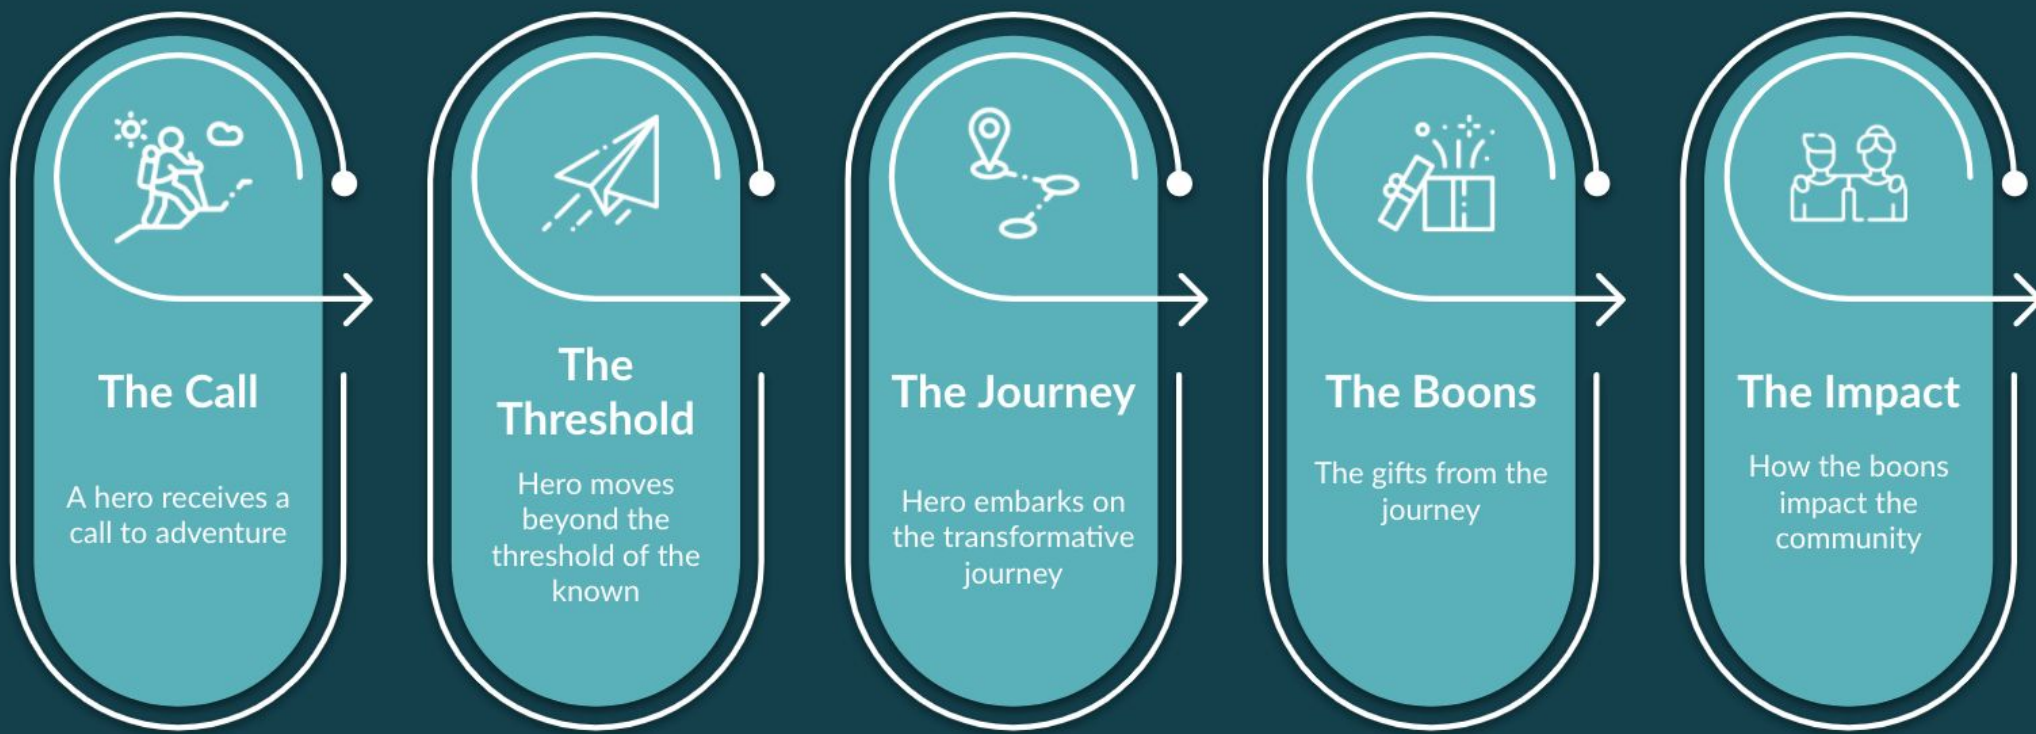

THE HERO'S JOURNEY

The hero's journey always begins with the call. One way or another, a guide must come to say, 'Look, you're in Sleepy Land. Wake. Come on a trip. There is a whole aspect of your consciousness, your being, that's not been touched. So you're at home here? Well, there's not enough of you there.' And so it starts.

THE FOURTH TURNING

THE FOURTH TURNING

Modern society has reached its limits. Society 5.0 will liberate us

People will be expected to exercise rich imaginations to identify a variety of needs and challenges scattered across society and the scenarios to solve them, as well as creativity to realize such solutions by using digital technologies and data. Society 5.0 will be an Imagination Society, where digital transformation combines with the creativity of diverse people to bring about "problem solving" and "value creation" that lead us to sustainable development. It is a concept that can contribute to the achievement of the Sustainable Development Goals (SDGs) adopted by the United Nations.

SOCIETY 5.0 AN ENTREPRENEUR BLUEPRINT

Japan's 'Society 5.0' initiative is a road map for today's entrepreneurs

Boldly identified as “[Society 5.0](#),” Japan describes its initiative as a purposeful effort to create a new social contract and economic model by fully incorporating the technological innovations of the fourth industrial revolution. It envisions embedding these innovations into every corner of its ageing society. Underpinning this effort is a mandate for sustainability, bound tightly to the new United Nations global goals, the SDGs. Japan wants to create, in its own words, a “super-smart” society, and one that will serve as a road map for the rest of the world.

Japan hosts its first-ever G20 summit in 2019, and this grand initiative will be on the agenda at the official B20 (Business 20) summit headed by the chairman of **Hitachi** .

Entrepreneur 4.0 chose between employee or employer. Between being a tech startup, social entrepreneur or digital nomad. Between online or offline.

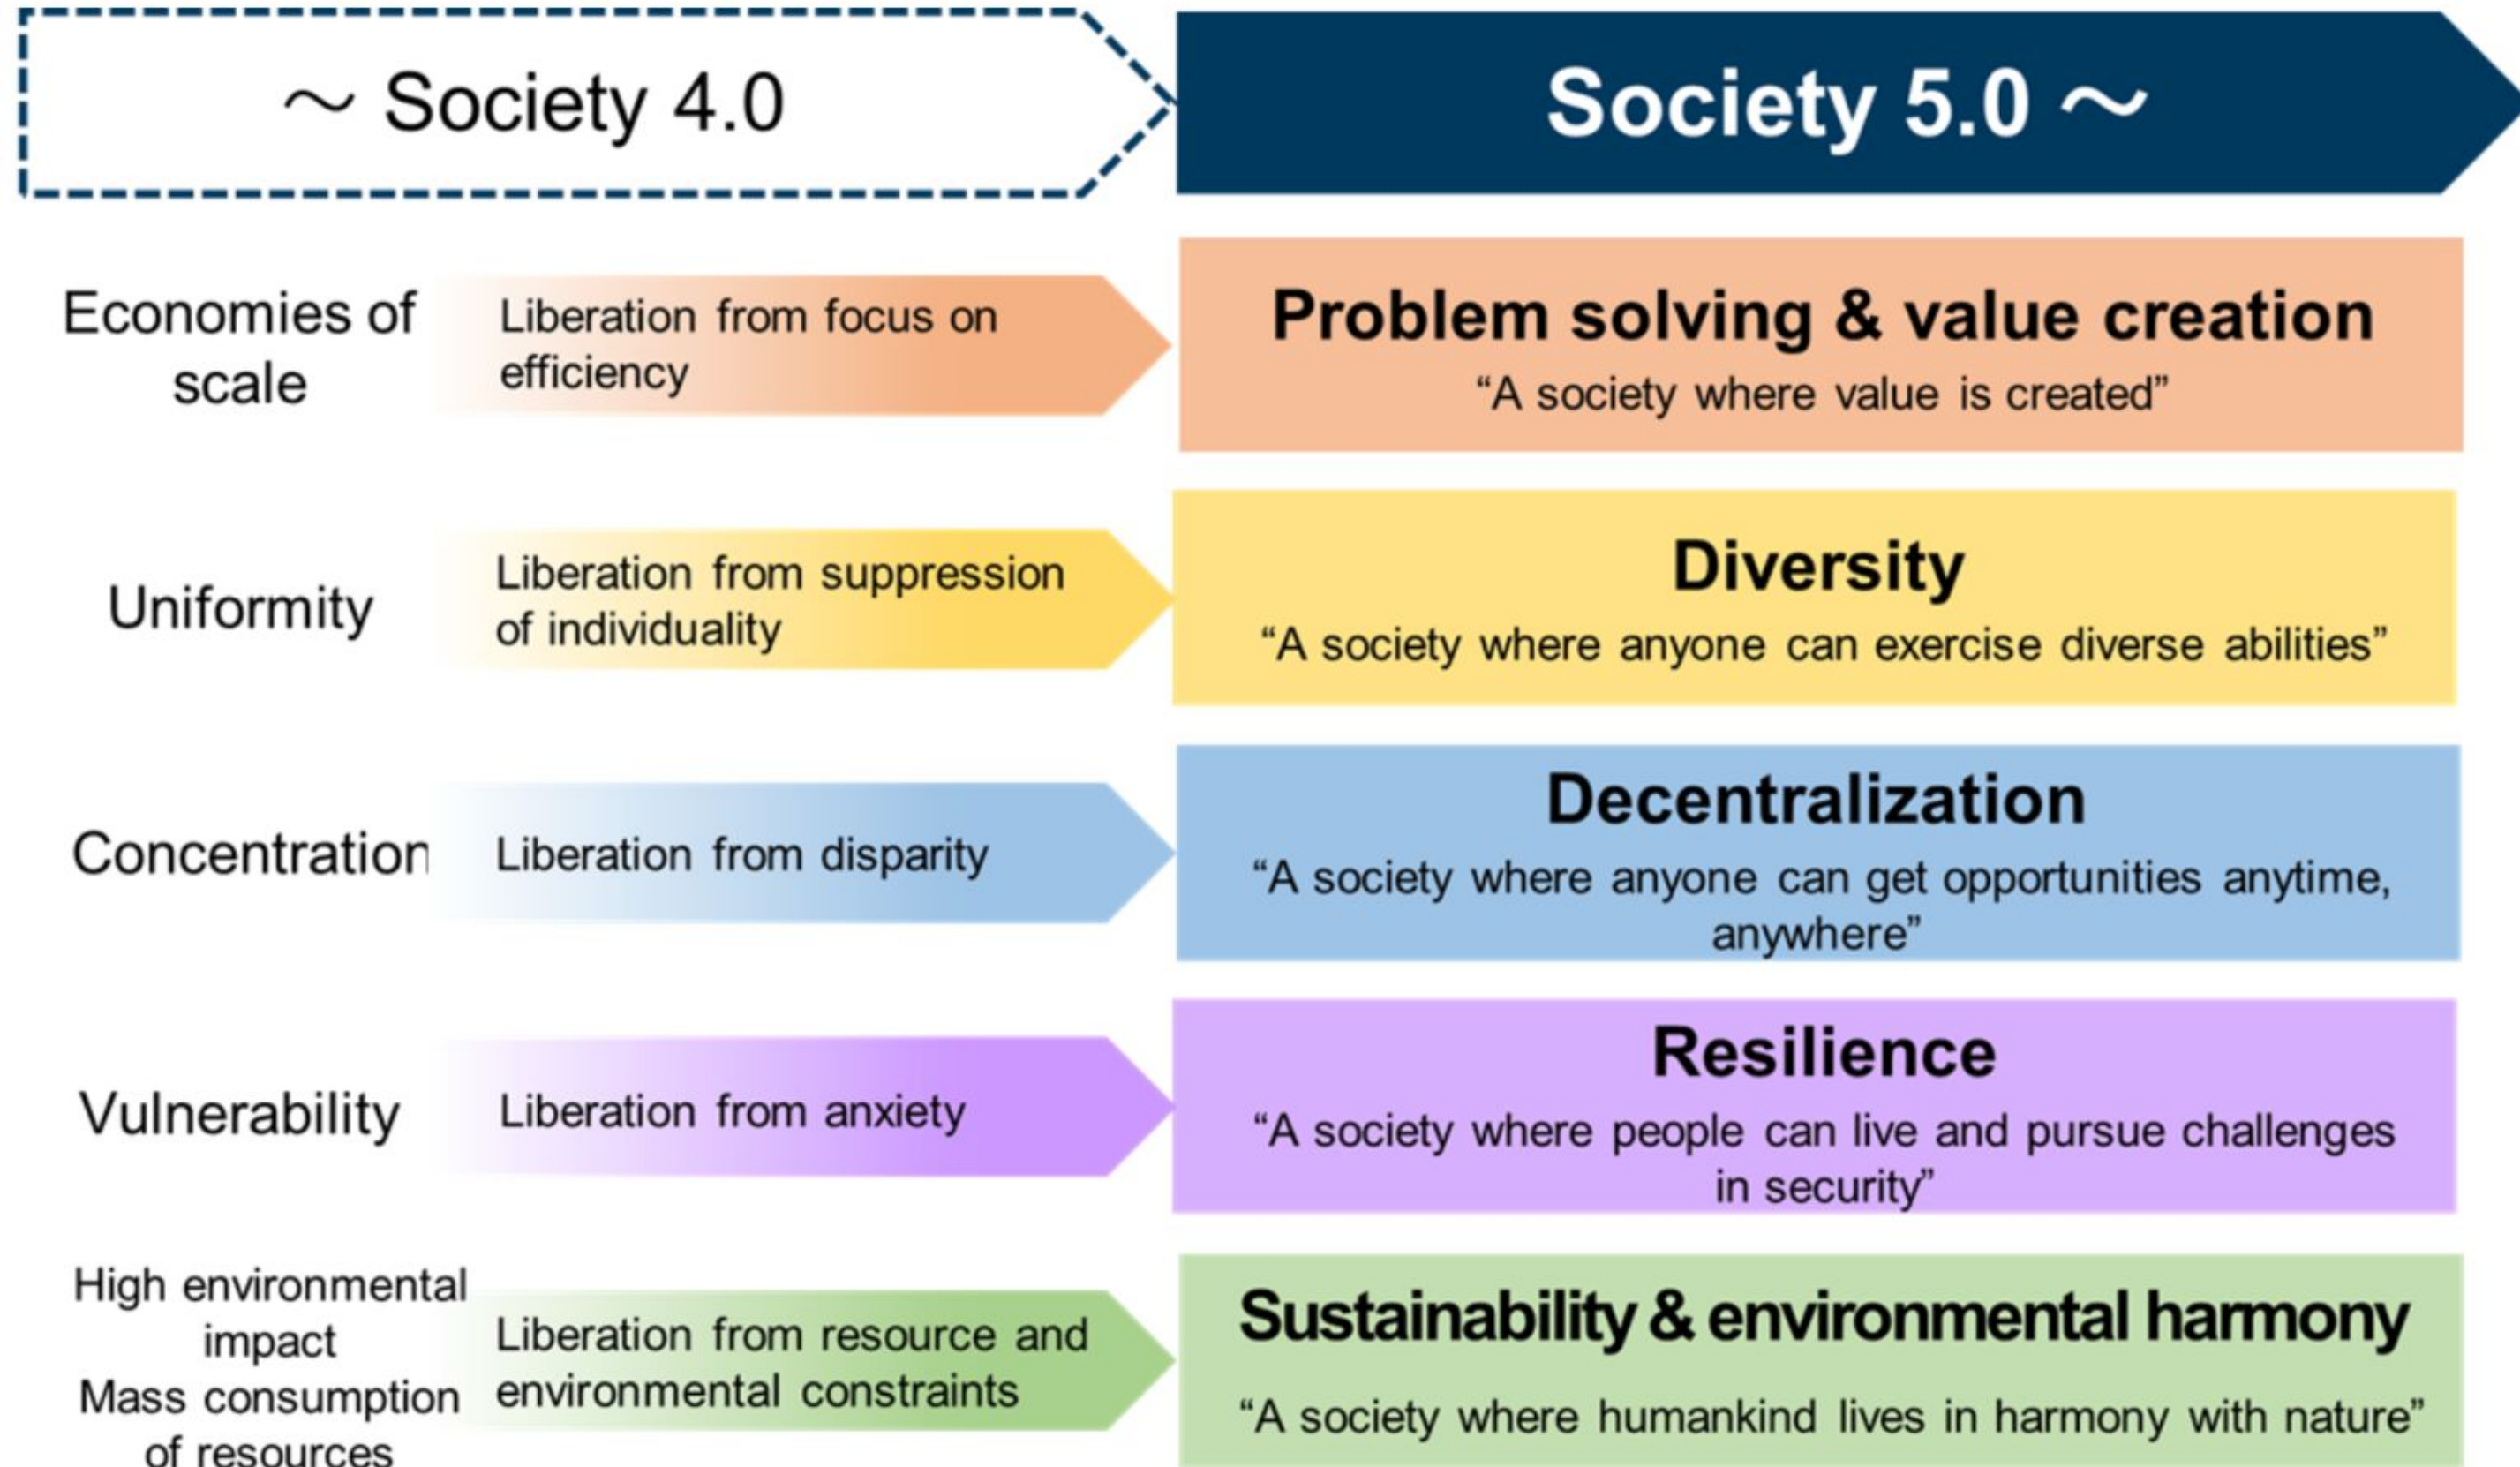

Entrepreneur 5.0 creates a job instead of getting a job: As both employee and employer. They value making money, making a difference, and living their best life: Income, impact and insight.

They use AI, AR and the digital layer to be both offline and online, hi touch and hi tech. They are the new renaissance man and woman.

The Three Prisms

The Alchemy Prism

This is mastery of the wealth flowing through our societies:
This is the prism in which money itself is made and the rules of our markets are created.

The Enterprise Prism

This is mastery of the wealth flowing through our markets: Our ability to manage investments and enterprises effectively to flow value and money through our teams and markets.

The Foundation Prism

This is mastery of the wealth flowing through our life: Our ability to create an abundant flow of value and money through our life regardless of market conditions.

Infrared Level

The Victim

“Every month, I go deeper and deeper in debt.”

Measure	Negative personal cash flow every month
Emotions	Struggle; blame; denial
Benefit of staying here	Martyrdom; Being anonymous; Being 'right'
Cost of staying here	Stress; anxiety; helplessness
Focus needed	Discipline and duty
How did I get here?	Not paying attention; not knowing better; not controlling flow
How do I stay here?	Do it yourself; Blame others; Pick a fight
How do I move up?	Measure Your Money; Commit to Conduct; Do Your Duty

Measure

Negative personal cash flow every month

Whether you are out of work or have a multi-million dollar portfolio, if your own personal cash flow is going backwards every month, you are at Infrared Level. Many at Infrared level may look outwardly successful, but to build sustainable wealth, stabilising your cash flow must be your first priority.

Like a bleeding patient in the emergency room, no matter how much you may protest that it's only a small cut, or that it doesn't hurt, the doctor will say stopping the bleeding is the first priority. Positive cash flow is the first discipline on your path to wealth.

Red Level

The Survivor

"I have just enough money to survive."

Measure	Zero - no shortfall or surplus cash flow every month
Emotions	Anxiety; stress; relief
Benefit of staying here	Endurance; Comfort; Instant Gratification
Cost of staying here	Exhaustion; resignation; life repeating itself
Focus needed	Passion and connection
How did I get here?	Impatience; distraction; conditioning
How do I stay here?	Measure Your Money; Commit to Conduct; Do Your Duty
How do I move up?	Pinpoint Your Passion; Set Your Standards; Follow the Flow

Measure

Zero - no shortfall or surplus cash flow every month

Whether you are out of work or have a multi-million dollar portfolio, if your own personal cash flow has no shortfall or surplus every month, you are at Red level. People at Red level may even live in big houses and go on expensive holidays but, if they are at Red, they are in danger territory.

The impatience to spend money and get ahead is leaving you running on empty. You are not giving money a chance to properly work for you to build wealth, and this mindset will keep you at Red even by working double as hard or earning double as much.

Orange Level

The Worker

“I work hard to earn a living.”

Measure	Positive personal cash flow controlled by others
Emotions	Dependence; resignation
Benefit of staying here	Self worth; Direction; Acknowledgement
Cost of staying here	Anonymity; fear; frustration
Focus needed	Identity and independence
How did I get here?	Education; mind-set; conditioning
How do I stay here?	Pinpoint Your Passion; Set Your Standards; Follow the Flow
How do I move up?	Identify Your Identity; Master Your Market; Monetize Your Moment

Measure

Positive personal cash flow controlled by others

The good news is you are at the top of the Foundation Prism, where you have your personal flow in positive monthly cash flow. But your cash flow is still being controlled by others. Whether it is your company paying you a salary or your clients paying you for your services, you do not have the ability to easily increase the amount coming your way. It's a little like the difference of a pedal bike and a motor bike. At Orange level you need to put in more effort for more reward. In the Enterprise Prism, power does not come from more effort, but by having built an engine and knowing what levers to pull.

Yellow Level

The Player

“I love what I do and create my own flow.”

Measure	Positive cash flow from mastering your market
Emotions	Self reliance; attraction; limitation
Benefit of staying here	Freedom; flexibility; self-indulgence
Cost of staying here	Limited growth; limited impact; isolation
Focus needed	Rhythm and mastery
How did I get here?	Resourcefulness; resilience; stubbornness
How do I stay here?	Identify Your Identity; Master Your Market; Monetize Your Moment
How do I move up?	Establish Your Enterprise; Refine your Rhythm; Synchronize your Steps

Measure

Positive cash flow from mastering your market

You have mastered your own personal flow, but this flow still relies on you as the music relies on a main Player. Moving to Green level Performer – which is the next step in multiplying your flow - is all about trusting others as much as you trust yourself, which means following strategies which are often the opposite of what got you to Yellow level.

Green Level

The Performer

“I create flow through team rhythm.”

Measure	Profitable cash flow through enterprise teams
Emotions	Rhythm; culture; measurement
Benefit of staying here	Leadership; Accomplishment; Harmony
Cost of staying here	Politics; maintenance; freedom
Focus needed	Authority and capital
How did I get here?	Interdependence; preparation; ambition
How do I stay here?	Establish Your Enterprise; Refine your Rhythm; Synchronize your Steps
How do I move up?	Anchor Your Authority; Perfect Your Processes; Build Your Balance

Measure

Profitable cash flow through enterprise teams

YCongratulations. You have positive personal cash flow, and are channelling market flow through an enterprise. If Yellow level Players were the single lane roads of the money map, Green level Performers are the three lane motorways. Motorways still get jammed though, and often by factors out of your control. You have the choice now of moving to Blue level, controlling multiple teams and multiple streams. When there's a jam, they by pass it altogether.

Blue Level

The Conductor

“I build multiple teams of income”

Measure	Strong cash flow from million-dollar portfolio
Emotions	Calm; patience; clarity
Benefit of staying here	Control; hedged risk; autonomy
Cost of staying here	Critics; isolation; loss of passion
Focus needed	Trust and promise
How did I get here?	Risk management; asset management; detachment
How do I stay here?	Anchor Your Authority; Perfect Your Processes; Build Your Balance
How do I move up?	Trump Your Trust; Capitalize Your Currency; Connect Your Community

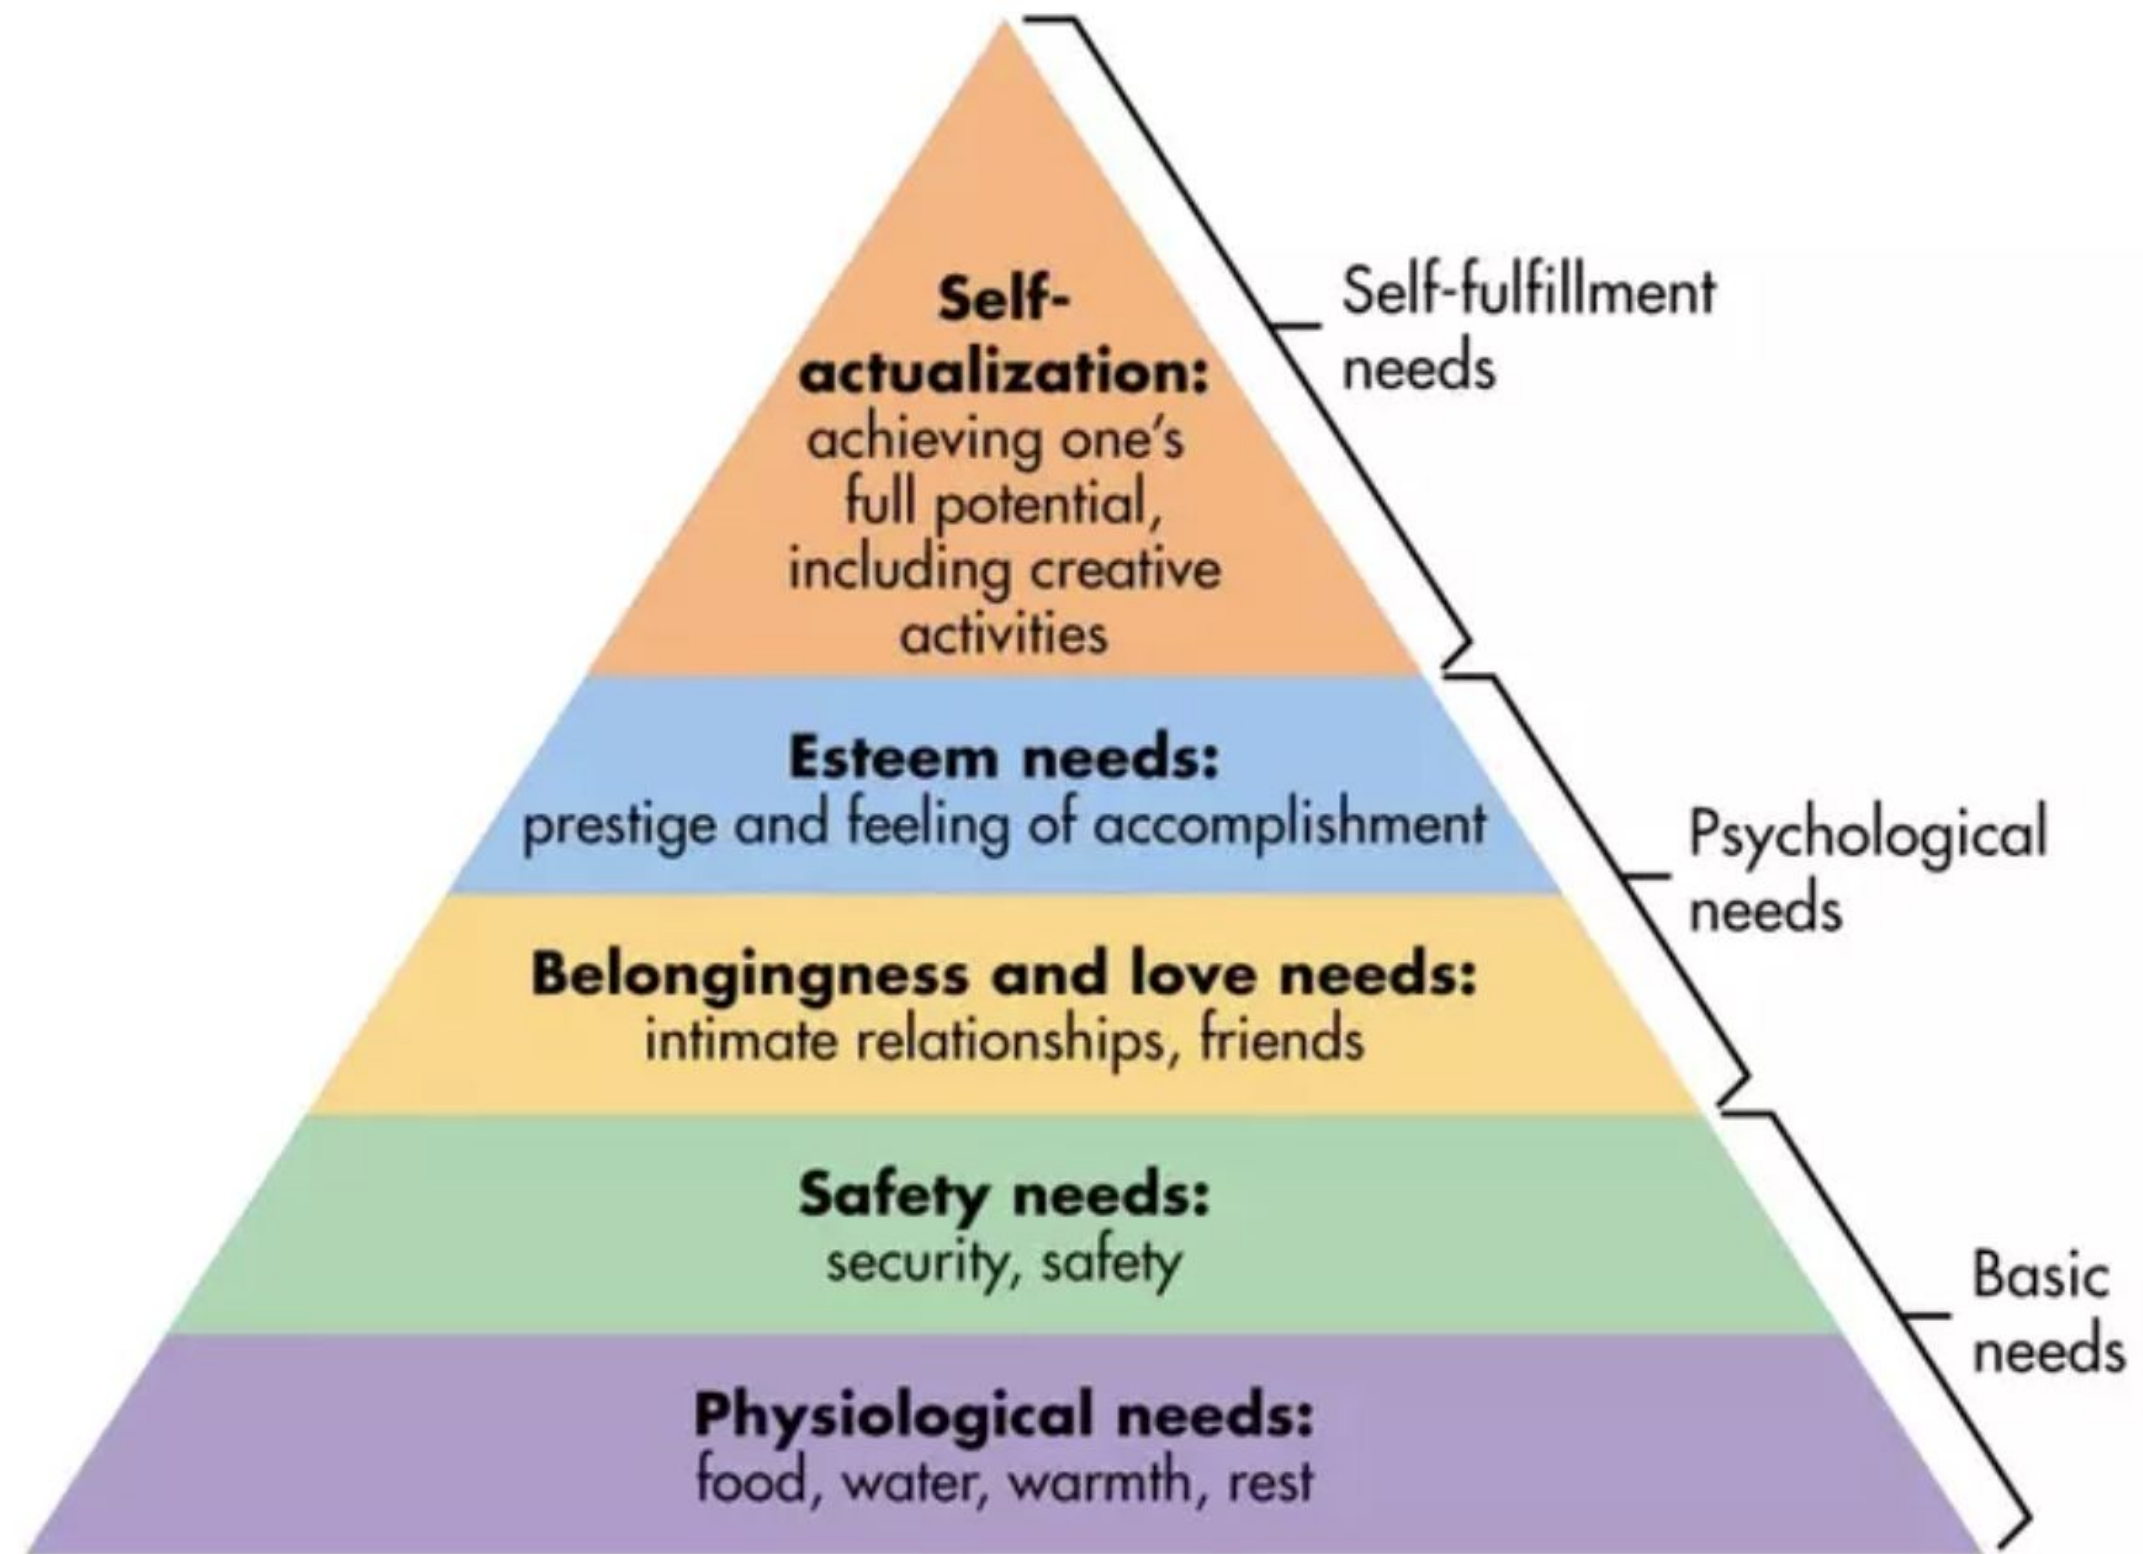

Measure

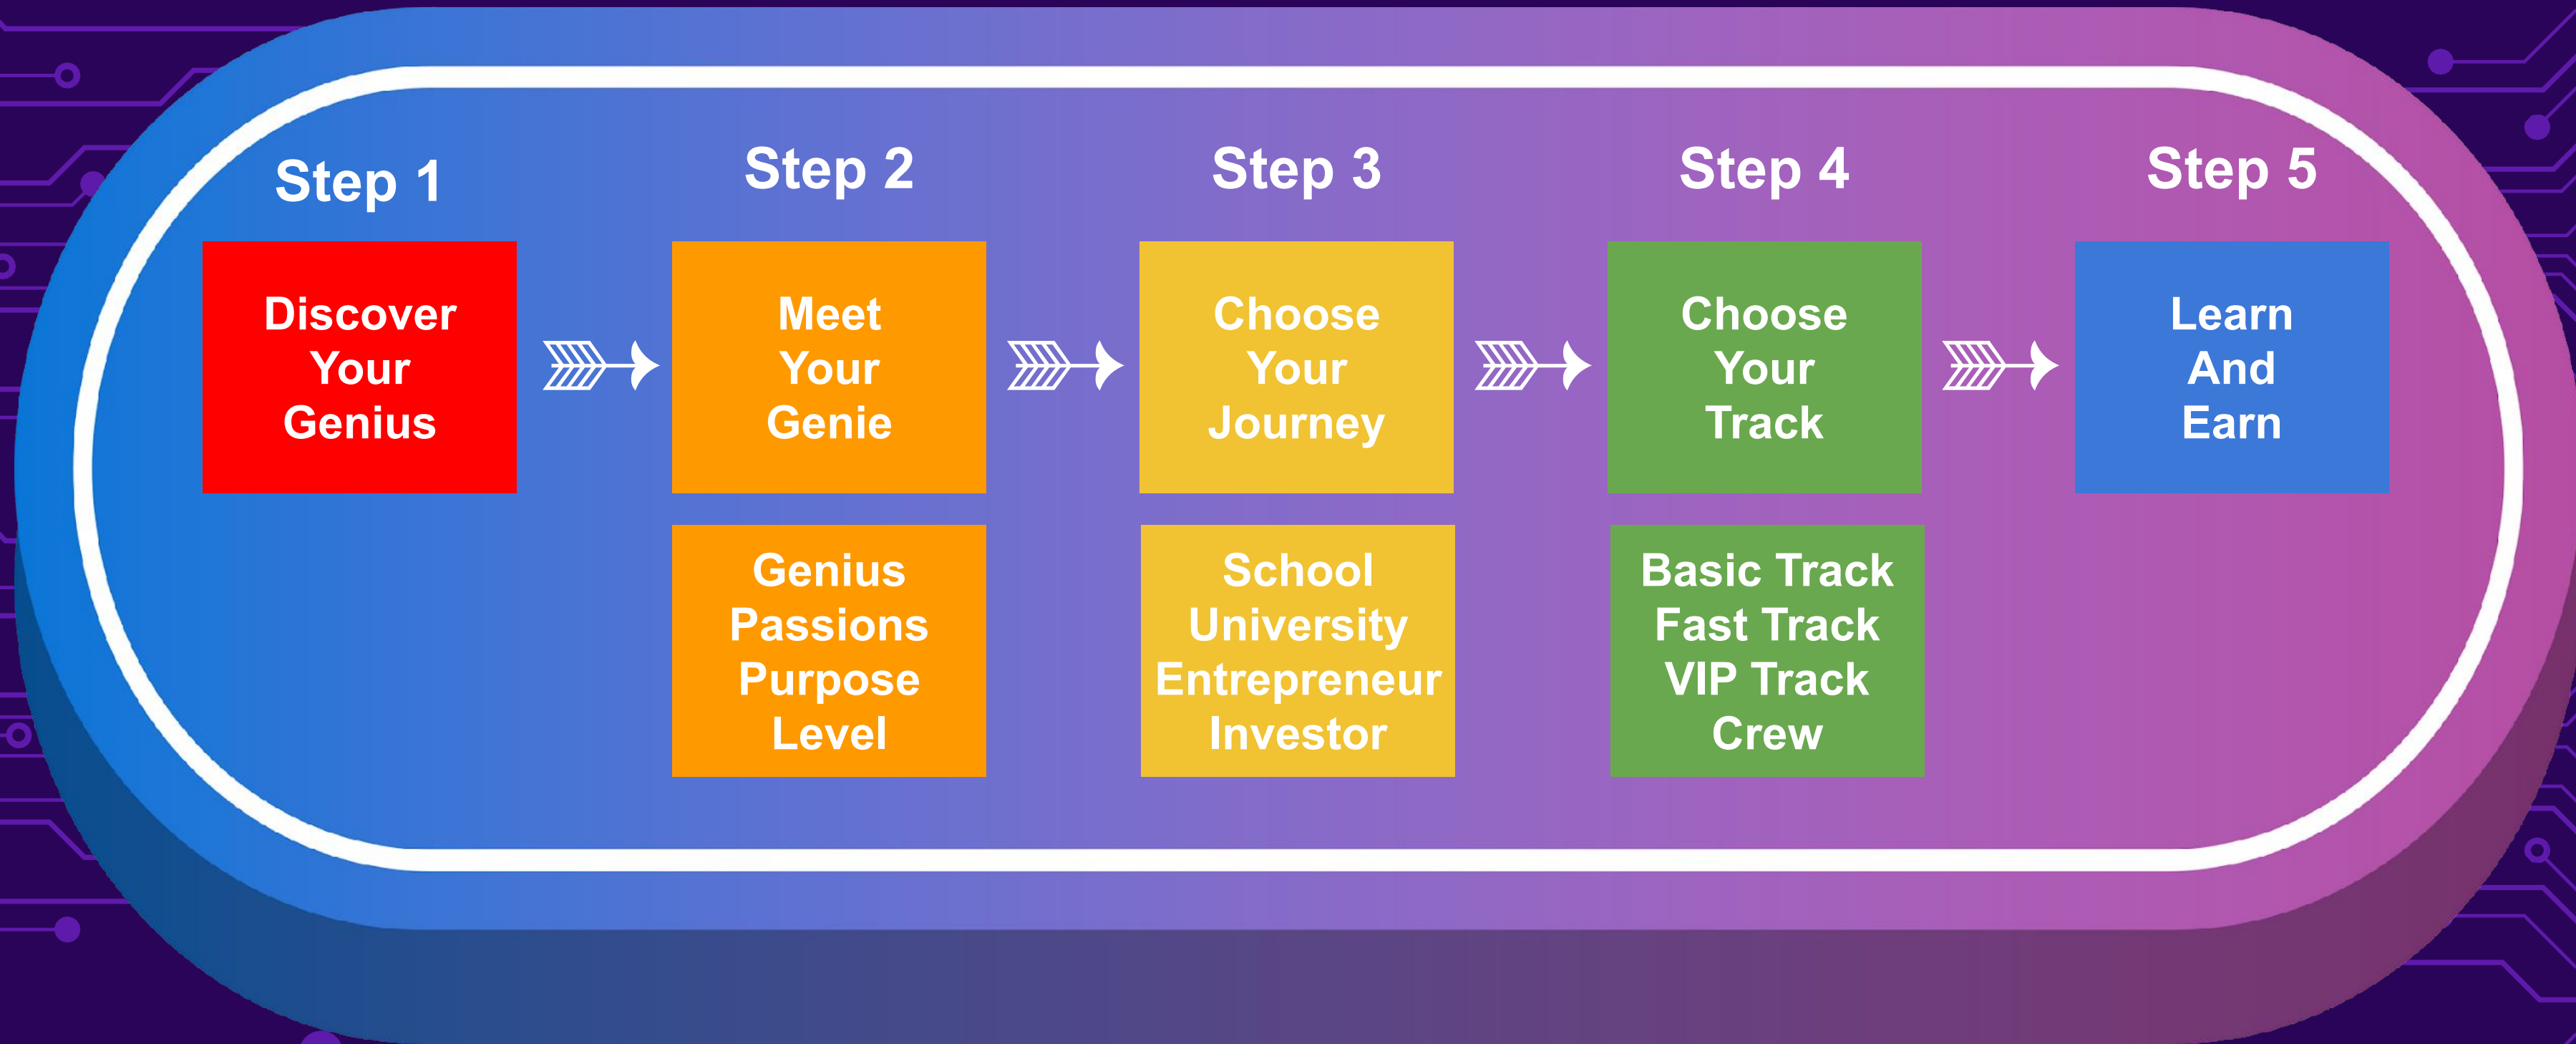

Strong cash flow from million-dollar portfolio

Congratulations on making it to the top of the Enterprise Prism. You have a solid understanding of how to allocate capital and build asset value, and you have leveraged teams to maintain and grow your assets for you. But why have all those assets churning out cash flow anyway? What's the point of conducting all this music if the audience will just give a polite applause and leave at the end? You may choose to stay at Blue, or you can choose to move up to Alchemy and leverage assets beyond your balance sheet. Alchemy is the domain of the billionaires.
